

# Cloth Puzzle Mosaic

All the children throughout the nursery from babies to pre school have collaborated to make this wonderful and unique piece of art.

Each child had a puzzle piece and decorated them using PVA and different pieces of material.

The children chose their own cloth pieces and spoke about the different colours, shapes and textures with some children opting to use smaller pieces of mosaic tile instead.

The children then glued their chosen piece into place with the PVA glue. When all the puzzle pieces were in place they showed the nursery initials.
