

2bees have been working together with children and parents to complete their home learning. All the children have their own home learning packs with relevant EYFS learning outcomes for their child's age with a range of activity ideas to meet these outcomes.

Each child also has a home learning journal with a weekly activity to complete at home and return to nursery the following week. All parents and children have become very engaged and look forward to carrying out their home learning activity and then sharing their learning with the staff and children the following week.
